Collaboration & Action

Public Health Insight

A POWERFUL PUBLIC HEALTH PLATFORM DESIGNED TO SUPPORT BETTER INFORMED DECISIONS DELIVERED BY DIGITAL GOVERNMENT EXPERTS

SYSTEM STRENGTHS

TRANSPARENCY

Complete oversight and compliance of current PDMP system, including statewide mandates

INTELLIGENCE

Unique patient-matching algorithm to prevent doctor shopping & medication diversion
Understand what is happening in your community with accessible public health insight views

REPORTING

Extensive reporting and superior data visualization functionality

ALERTS

Real-time notifications to empower stakeholders in the fight against opioid abuse

THE RIGHT PROVIDER

- 26 years of delivering innovative digital government services
- NIC builds connected systems to help agencies communicate and share data
- Collaborative approach to serving government and supporting its mission

THE RIGHT PLATFORM

- Modular SaaS that is proven, repeatable and open
- Services to compliment an existing PDMP service with a feature-rich user interface
 - » Data visualization | Analytics | Reporting | BI | Population health management dashboards
 - » Real-time data integration
- Commitment to data transparency
- Hosted in trusted Microsoft Azure cloud
- Interoperable system with user-friendly communication and analysis tools

THE RIGHT IMPLEMENTATION

- State-centric approach to delivering and supporting the platform
- Open platform can access any data, including from existing vendors
- Rapid deployment with easy migration on top of any PDMP system
- Configurable for each state's workflows and business rules
- Continuous enhancements without downtime
- Transparent costs - fair upfront pricing and no reliance on change orders or bolt-on enhancements
