

The Only Platform Designed Specifically for the Cannabis Industry

- Citizen and Regulator Portals
- Patient Registry
- Caregiver Registry
- Mobile Inspections
- Healthcare Professional Registry
- Business Licensing
- Employee Credentialing
- Payment Processing

We Serve Government and Industry

NIC Licensing Solutions address the unmet needs of the rapidly evolving cannabis regulatory industry. Our current state partners include:

- Illinois
- Missouri
- New Jersey
- Mississippi
- West Virginia

We Are Experts

We understand the cannabis industry. Our team of experts applies years of experience to build configured solutions that meet the unique needs of government and constituents.

We Move Fast

We recognize that legislation often requires a rapid turnaround. By leveraging phased implementations, most clients go live in only a few months.

Custom Built for Government

Configurable for Every State

Rapid Implementation

WHAT MAKES OUR SOLUTION DIFFERENT?

- Custom-built for government, not a commercial platform modified for agency use
- Informed by deep cannabis industry experience
- Out-of-the-box integration with leading seed-to-sale systems
- Native payment processing as well as third-party processor integration
- Proven track record of success with on-time implementations and strong customer service
- HIPAA, SOC 2, and WCAG 2.0 AA compliant
- Intuitive interface and workflows
- Cloud-hosted with a highly scalable, secure platform
